vessel must immediately notify the appropriate USCG commander identified in tables 1 and 2 to §600.502 and request disposal instructions. Each report must include:

- (1) The name of the reporting vessel.
- (2) A description of the incident and articles retrieved, including the amount, type of gear, condition, and identification markings.
 - (3) The location of the incident.
 - (4) The date and time of the incident.
- (c) Disposal of fishing gear and other articles. (1) The operator of an FFV in the EEZ may not dump overboard, jettison or otherwise discard any article or substance that may interfere with other fishing vessels or gear, or that may catch fish or cause damage to any marine resource, including marine mammals and birds, except in cases of emergency involving the safety of the ship or crew, or as specifically authorized by communication from the appropriate USCG commander or other authorized officer. These articles and substances include, but are not limited to, fishing gear, net scraps, bale straps, plastic bags, oil drums, petroleum containers, oil, toxic chemicals or any manmade items retrieved in an FFV's
- (2) The operator of an FFV may not abandon fishing gear in the EEZ.
- (3) If these articles or substances are encountered, or in the event of accidental or emergency placement into the EEZ, the vessel operator must immediately report the incident to the appropriate USCG Commander indicated in tables 1 and 2 to §600.502, and give the information required in paragraph (b) of this section.

§ 600.511 Fishery closure procedures.

- (a) Activity Codes 1 and 2 for a fishery are automatically canceled in the following cases, unless otherwise specified by regulations specific to a fishery, when—
- (1) The OY for any allocated species or species group has been reached in that fishery;
- (2) The TALFF or catch allowance for any allocated species or species group has been reached in that fishery;
- (3) The foreign nation's allocation for any allocated species or species group has been reached; or

- (4) The letter of credit required in §600.518(b)(2) is not established and maintained.
- (b) Activity Code 4 is automatically canceled when—
- (1) The OY for a species with a JVP amount is reached;
- (2) The JVP amount for a species or species group is reached; or
- (3) The letter of credit required in §600.518(b)(2) is not established and maintained.
- (c) Notification. (1) The Regional Administrator is authorized to close a fishery on behalf of NMFS. The Regional Administrator will notify each FFV's designated representative of closures
- (2) If possible, notice will be given 48 hours before the closure. However, each Nation and the owners and operators of all FFV's of that Nation are responsible for ending fishing operations when an allocation is reached.
- (d) Catch reconciliation. Vessel activity reports, U.S. surveillance observations, observer reports, and foreign catch and effort reports will be used to make the determination listed in paragraphs (a) and (b) of this section. If NMFS estimates of catch or other values made during the season differ from those reported by the foreign fleets, efforts may be initiated by the designated representative of each Nation to resolve such differences with NMFS. If, however, differences still persist after such efforts have been made, NMFS estimates will be the basis for decisions and will prevail.
- (e) *Duration*. Any closure under this section will remain in effect until an applicable new or increased allocation or JVP becomes available or the letter of credit required by §600.518(b)(2) is reestablished.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998]

§ 600.512 Scientific research.

(a) Scientific research activity. Persons planning to conduct scientific research activities on board a scientific research vessel in the EEZ that may be confused with fishing are encouraged to submit to the appropriate Regional Administrator or Director, 60 days or as soon as practicable prior to its start, a scientific research plan for each scientific
